

## SRF Green Alley Public Hearing Comments

January 2014

---

Barbara and Joseph Fecker  
587 West Locust St.  
563-556-2552

called 1-27-14 @ 9:05 a.m.

Major complaint against the project is:  
That they were not even asked if they wanted the alley repaired. The citizens were not a part of the process until the end yet they are required to pay for it.

---

Linda Cathman  
591 West Locust St.  
563-588-1299

called 1-27-14 @ 11:19 a.m.

Major complaints against the project are:  
That they were not asked if they wanted the alley repaired.  
Other alley projects were paid for with grant money, why not this one?  
The alternate parking is not in a perceived safe location.  
The current brick streets don't seem to be maintained well.

---

Ellen Rath  
595 West Locust St.  
563-557-0316

called 1-27-14 @ 12:59 p.m.

Major complaints against the project are:  
That they were not asked if they wanted the alley repaired.  
Other alley projects were paid for with grant money, why not this one?  
Citizens believe that the flooding isn't caused by the water in the alley, it is caused by the water from the street.
