# NEWS RELEASE

Jan. 26, 2010 – FOR IMMEDIATE RELEASE

## **Basement Remodel Planned? Remember Water Meter Access**

DUBUQUE, Iowa – Dubuque residents and business owners who have not yet received a new water meter and are planning remodeling projects in their basements or areas where their water meter is located are asked to first contact the City of Dubuque Water Department Meter Division. Doing so before a remodel project may help avoid future difficulties when the property's existing water meter must be replaced.

Please call 563-589-4304 to schedule an appointment for City staff to reroute or replace the existing wire from your water meter to the registration device on the exterior of your home or business. There is no charge for this service.
