NEWS RELEASE

June 30, 2008 – For Immediate Release

City to Sponsor Workshop on Residential Energy Code

DUBUQUE, Iowa – The City of Dubuque Building Services Department will sponsor a one-day workshop on the residential aspects of the International Energy Conservation Code (IECC).

The workshop, entitled “Residential Energy Code Fundamentals,” will be held on Monday, July 21, 2008, at the Grand River Center in Dubuque from 8 a.m. to 3:30 p.m. The cost to participate is \$60, which includes a workbook, lunch, and refreshments.

“Residential Energy Code Fundamentals” was developed for contractors but anyone interested in the topic is welcome to participate. The workshop will provide an overview of critical concepts of the IECC; a basis for the correct use of the code in design, plan review, inspection and analysis of projects; and a clear understanding and correct use of the requirements identified by these basic code provisions, tables, and categorizations. The information presented will allow the code users to apply the code in clear-cut situations and help to build their understanding of the intent of the code.

To register, or for more information, please contact Dennis Hackbarth in the City of Dubuque Building Services Department at (563)589-4150 or dhackbar@cityofdubuque.org.
