Greta Wallace reviewed her request noting that she has problems with deer and neighbors who shoot them, and neighbors who dump garbage in her woods. She indicated that the proposed fence will be in good taste and is necessary to bring her problems under control. The privacy fence would be beneficial for an artist's retreat she hopes to establish in the future. Ms. Wallace showed a fence design to the Board. Board Members and people in attendance viewed the design. She reviewed the types of fences that she considered.

Board Member Klauer asked why a 9 foot fence is needed. Ms. Wallace explained that she plans to spend quite a bit of money on the landscaping, but the deer have been eating plants on the property. The fence is necessary to keep up to 13 deer off the property. Ms. Wallace reviewed the problems she has encountered with putting in prairie landscaping on the property. She also reviewed that a neighbor shot a deer and the wounded deer came onto her property. She reviewed the history of the property. She said that she is in a battle over property ownership. Chairperson Ruden indicated he would like to table this agenda item to allow the applicant to create a more detailed plan showing the location and type of the fence. He also suggested she have a meeting with neighbors to address their concerns. The Board discussed the request noting that their major concern with the fence is along
Clarke Drive. They felt that tabling the special exception would be appropriate to allow the applicant an opportunity to address concerns of the Board and neighbors.

He explained that only the property owner could apply for a special exception. Lisa Pitz-Rokusek reviewed her request for a variance and asked Steve Hunn to review how the required parking is determined. Mr. Hunn reviewed that the space on site is only adequate for 3 spaces with one being accessible. He reviewed that a more practical estimate would be 2 per chair. Mr. Hunn reviewed that he contacted the University of Dubuque regarding the leasing of the adjacent parking lot. The applicant reviewed the availability of on-street parking and previous use of the site.
Ron Vaughn, 3155 University Avenue, noted that he has been at this location for 16 years. He does not object to the request, but is concerned about north side parking for visibility for vehicles pulling out of driveways. He felt that on-street parking should be limited to the south side of University Avenue.

Mr. Hunn discussed the visibility along University Avenue noting on average there will be 5 or 6 customers at any one time. Ms. Rokusek noted that because of different shifts of the employees it would be unusual for all of them to be there at the same time.

The Board reviewed the likelihood of all the employees being there at one time.

Mr. Hunn discussed the potential for customers to park in the vacant restaurant adjacent to the subject property.

Ms. Rokusek indicated that she will require employees to park off-site.
