June 5, 2013 – FOR IMMEDIATE RELEASE

Water & Resource Recovery Center Project Impacts RV Waste Dumping Service

DUBUQUE, Iowa – A street-paving project related to construction of Dubuque’s Water & Resource Recovery Center will sporadically prevent access to the facility’s recreational vehicle (RV) waste dumping service site until late next week.

RV owners who need to utilize the service are asked to call the Water & Resource Recovery Center at 563-589-4176 or email wrrc@cityofdubuque.org before driving to the facility to verify when they will be able to have access.
