4. Motion to Receive and File Informational Items:

A. Library Director’s Report Summary and Update: Henricks provided a written summary on the following topics to the Library Board with additional comments:
1) Library Financial Report Fiscal Year 2015 (FY15) – Henricks reported that 17 percent of the fiscal year has lapsed and budget expenditures are at 14 percent with revenue collected at 19 percent of projections.

2) Library Use Statistics – Henricks reported that overall library use decreased in August. Check outs by Dubuque residents dropped 2 percent year-to-date and Open Access check outs dropped 16 percent year-to-date. Together the library has realized an overall decrease of 4.2 percent compared to the same time last year. Digital materials continue to increase and check outs are up 19.5 percent year-to-date compared to FY14. Willis questioned the wireless usage decrease and Henricks responded that there was a power outage which brought down the Library’s wireless system, so a new wireless system was purchased. The old system counted every time a person walked in with a smartphone, laptop, or other device. The new system recognizes unique users and now it can be seen where the most common usage areas are within the library.

3) Facility Update – The elm veneer replacement has been fully completed. The carpet in the children’s program room had an odor, which was treated with enzymes and a special cleaner by Steamatic. It was thought that the treatment had not been effective because the odor remained for two days after the treatment; however, during the days the library was closed for Labor Day, the odor dissipated and the area is now back to normal.

Work will begin on the sanitary line on the first floor on October 9, 2014. The current line, which is 35 years old and quite full of mineral build-up and debris, will be eliminated. Plumbing lines from the first floor restrooms closest to the Circulation Desk will be rerouted to the new line that was introduced during the renovation. Additionally, clean-outs will be added for efficient access and maintenance in the future.

4) Project Update – Henricks reported that Biblioteca was awarded the Radio Frequency Identification (RFID) project and Backstage Productions has been contracted for the retro-conversion work. Work to convert materials to RFID is planned to begin in early October and should be completed within two months. New cash registers with a credit card solution have been ordered; however, the VerifiFone credit card readers are on back order and will delay implementation for 10 weeks. Due to the delay in the credit card readers, the company is going to implement the online ability to
pay fine and fees immediately. Henricks stated there was an article in today’s *Telegraph Herald* about the library’s new Integrated Library System (ILS), the upcoming RFID system, and the Board’s strategic planning session.

5) Personnel Update – Henricks provided the Board a review of the Staff Development Day, Thursday, September 18, 2014, and staff’s feedback. Henricks reported that a request to fill a part-time Library Assistant position has been submitted to the City.

B. Library Comment Cards - The Library Board reviewed the three comment cards received and concurred with the responses.
