NEWS RELEASE

July 14, 2015 – For Immediate Release

Temporary Closure of Olde Davenport Road Begins Monday

DUBUQUE, Iowa --- A project to connect city utilities to the Dubuque Regional Airport will require the temporary closure of Olde Davenport Road near US highway 61/151 for approximately four weeks beginning on Monday, July 20. A posted detour will utilize Schueller Heights Road and US highway 52 during the closure.

The City of Dubuque is extending fiber optic conduit, interceptor sanitary sewer, and water main utility to the airport. Project work that will require Olde Davenport Road to be closed will begin on Monday, July 20, and is expected to last one month. This utility extension project is in progress and is being completed by Miller Trucking & Excavating.

The extension of fiber optic conduit, interceptor sanitary sewer, and water main to the airport will not only provide the airport and adjacent industrial and commercial developments with fiber optic infrastructure, sanitary sewer service, domestic water service and fire protection, it will allow for future City services throughout this developing area.

For questions regarding the Dubuque Regional Airport Utility Extension project, contact the City of Dubuque Engineering Department at (563) 589-4270 or engineering@cityofdubuque.org.
