Text-to-911 Now Available in Dubuque and Dubuque County

As of November 2017, six mobile service providers — AT&T, i-Wireless, Sprint, T-Mobile, U.S. Cellular and Verizon — allow residents to text 911

on their mobile phones with an active text messaging plan. Regular texting rates apply for 911 texting.

Using “Text-to-911” in an emergency can be helpful for residents who have hearing or speech impairments. It can also be helpful in situations in which making a voice call to 911 is dangerous or not possible. However, if it is safe to do so, calling 911 instead of texting is preferable. Voice calls are the

fastest, most efficient way to reach emergency help.

When calling 911, dispatchers receive the caller’s location and phone number, giving them a starting point for sending help. However, texting to 911 does not give dispatchers

a phone number or location so please provide an accurate address or location as quickly as possible.

To text 911

1. Put 911 in the “to” field and type the message in the “message area.”
2. Provide your location, along with a short description of the emergency.
3. Use simple words.

Please do not use abbreviations or emojis, DO NOT text while driving, do not include 911 as part of group text, and do not test to see if texting to 911 works. Calling or texting 911 when there is no emergency is against the law.

If traveling in an area where text to 911 is not available or your phone is in roaming status, and you attempt to text 911, you will receive a bounce-back message informing you that the service is not available in that area.

In an emergency, it is always preferred that you call 911, but if you cannot call, text. §

A MESSAGE from the CITY MANAGER

Michael C. Van Milligen

A community's comprehensive plan is an important document. It guides city government efforts but its most notable purpose is to help inform community initiatives and priorities. "Imagine Dubuque 2037: A Call to Action" was adopted by the City Council on September 18, 2017, and is our community's comprehensive plan. It was developed by the community through the active participation of over 6,000 residents who contributed over 12,500 ideas to make Dubuque a more viable, livable, and equitable community. These ideas created the content and recommendations contained in the plan.

This significant level of community engagement in the plan development process is noteworthy. In fact, the Iowa Chapter of the American Planning Association (APA) recognized the City of Dubuque and the Imagine Dubuque Community Engagement Plan with its Public Outreach award at the 2017 APA-Iowa Awards during the 2017 Upper Midwest Planning Conference in October. The Public Outreach award honors an individual, project, or program that uses information and education about the value of planning to create greater awareness among citizens or specific segments of the public. The award celebrates how planning improves a community's quality of life.

Imagine Dubuque 2037 offers unique and valuable insight into the consensus of our community's values and priorities. It offers perspective on community goals and objectives that are relevant and meaningful to our residents.

Imagine Dubuque 2037 is not just a plan. It is a call to action that speaks to a variety of economic, social, and environmental opportunities that impact residents' lives every day. It is the responsibility of all Dubuque residents and stakeholders to help develop Imagine Dubuque 2037 action steps, create the strategies for success, be inclusive in our efforts, and make our community sustainable and resilient.

The plan was developed by the community and it will take the community to

implement it. Like many of Dubuque's successes, Imagine Dubuque will require shared vision, collective effort, and strong partnerships to be successful. I encourage you to review the plan and consider what you can do to support the community goals outlined in it. For more information and to view the plan, visit www.cityofdubuque.org/ImagineDubuque. A hard copy is also available for viewing at the Carnegie-Stout Public Library Reference Desk.
