b) Section Eight Management Assessment Program (SEMAP) Report for FY2019

Teresa Bassler, Assisted Housing Supervisor, announced HUD provided the final rating for the Section Eight Management Assessment Program; the City of Dubuque was named “high performer”. She discussed the new format that was received for the ratings. The indicators are as follows:

**Indicator #1** Selection from Waiting List (15 of 15) – This indicator ensures the applicants are properly selected from the Waiting List.

**Indicator #2** Reason sonable Rent (15 of 20) – Staff make sure that the rent being charged for an assisted unit is comparable to units not receiving assistance.

**Indicator #3** Determination of Adjusted Income (15 of 20) – There were a few errors made in rent calculations based on the income information that was submitted. Additional training for the new staff will help correct this.

**Indicator #4** Utility Allowance Schedule (5 of 5) – Staff look at utility costs and adjust them accordingly.

**Indicator #5** Housing Quality Standards (5 of 5) – This is quality control for inspectors to ensure they are up to date with quality standards and Code.

**Indicator #6** HQS Enforcement (10 of 10) – This is the actual inspections that are completed. They must be completed in a timely fashion depending on severity of the violation.

**Indicator #7** Expanding Housing Opportunities (5 of 5) – This makes sure the rental assistance is offered in all different areas of the community and more landlords are educated about the program.

**Indicator #8** Payment Standards (5 of 5) – These are the standards set for the rents. In Dubuque, there are 2 types of payment standards—Standard Rent and Exceptional Rent.

**Indicator #9** Annual Reexams (10 of 10) – There is a requirement for all tenants to complete a reexamination at least annually.

**Indicator #10** Tenant Rent Calculation (5 of 5) – HUD grades the housing authorities through the HUD system.

**Indicator #11** Pre-contract Housing Quality Standard (5 of 5) – This makes sure that rental assistance is not paid for units that have not inspected yet.

**Indicator #12** Biennial Inspections (10 of 10) – All voucher participants have biennial inspections. There were no late inspections. (The CoC SNAP & Mod Rehab programs have annual inspections.)

**Indicator #13** Lease Ups (20 of 20) – The goal is to maintain 95% of budgeted amount for lease ups or lease up 95% of the allotted 1,072 vouchers. The Department tries to always meet the budgeted amounts for lease ups.

**Indicator #14** Family Self-Sufficiency (0 of 10) – This is for housing authorities that are required to have the Family Self-Sufficiency program. The Department offers this program voluntarily.

**Bonus Points** are more for deconcentration areas that are low poverty areas. They look at were people have moved. Normally they do not obtain points for this indicator.

Steeger added that the SEMAP report is a combination of HUD’s reviews of information and the Department’s review of information which is self-reported. If HUD finds that there are major areas of concern, the Department has to respond. There was a concern with lease ups to which the Department has responded to HUD. The Department is also looking to apply for grants to assist with leasing up additional units.
