DATE: April 1, 2014

SUBJECT: SRF Green Alley Bid Set 4
(CIP 7102450)

INTRODUCTION

The enclosed resolutions authorize the public bidding procedure for the SRF Green Alley Bid Set 4 Project.

BACKGROUND

Construction of permeable paver alleys will reduce the volume and peak flow of runoff to the Mississippi River while also reducing the pollutant load associated with stormwater runoff. As part of the restructuring of the State Revolving Fund (SRF) loan with the Iowa Department of Natural Resources, $9.4 million was allocated to reconstruct 73 alleys in the Bee Branch Watershed. These alleys are to be reconstructed over the next two years.

DISCUSSION

Bid Set 4 will involve the reconstruction of two alleys in the Bee Branch Watershed. The alley locations are as follows:

- Marshall Street to Hamilton Street (Between Rhomberg Avenue and Garfield Avenue) – 2 alleys

This project will reconstruct the fourth set of alleys for the SRF Green Alleys in the Bee Branch Watershed. The Engineering Department and three private consulting firms are working on the design and construction documents for the remainder of the alleys. These 2 alleys being reconstructed include no utilities, except sewer manhole repairs where the project affects them.

The reconstruction of the alleys will include:

- Removal of the existing alley pavement
- Excavation of the subgrade to allow the placement of clean washed stone for a storage medium
- Installation of a concrete border for the brick pavers
- Installation of concrete headers at the alley intersection with the intersecting streets.
- Reconstruction of the pavement surface with interlocking concrete pavers

This project will reconstruct the alleys into green alleys. These alleys allow rainwater to infiltrate into the pavement rather than runoff into the storm sewers. This infiltration allows for filtering of the water and recharge back into the aquifer. Monitoring wells are also planned to be installed so that water quality improvements can be documented.

The project construction documents will follow the Statewide Urban Design and Specifications (SUDAS) in the development of the construction documents.

The Iowa Department of Natural Resources (IDNR) have reviewed and approved the plans so that the City cost can be covered with SRF funds.

This project will have special assessments.

**PROJECT SCHEDULE**

The schedule for the project is as follows:

- Initiate Public Bidding Process: April 7, 2014
- Publish Notice to Bidders, Advertise for Bids: April 11, 2014
- Publish Public Hearing Notice on Plans & Specs & Assessments: April 11, 2014
- Mail Special Assessment Notice to Property Owners: April 11, 2014
- Publish Notice of Special Assessment: 1st Publication: April 11, 2014
- 2nd Publication: April 18, 2014
- Receipt of Bid Proposals (Bid-Letting): May 8, 2014
- Award Construction Contract: May 19, 2014
- Project Completion Date: August 31, 2014

**RECOMMENDATION**

I recommend that the City Council give preliminary approval to the construction plans and specifications and approve the Resolution of Necessity, approve the Preliminary Schedule of Assessments, establish May 5, 2014, as the date of the public hearing, and hereby authorize the City Clerk to advertise for bid proposals for the SRF Green Alley Bid Set 4 Project.

**BUDGET IMPACT**

The estimate of probable cost for the SRF Green Alley Bid Set 4 Project is as follows:
Construction Contract  
Contingency  
Construction Engineering & Inspection  
**Total Project Cost**  

<table>
<thead>
<tr>
<th>Fund Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>SRF Green Alley Project</td>
<td>$218,862.84</td>
</tr>
<tr>
<td>Special Assessment – Alley Improvement, Residential</td>
<td>32,824.73</td>
</tr>
<tr>
<td>Special Assessment – Alley Improvement, Commercial</td>
<td>0.00</td>
</tr>
<tr>
<td><strong>Total Project Funding</strong></td>
<td><strong>$251,687.57</strong></td>
</tr>
</tbody>
</table>

**PROPERTY ASSESSMENTS**

Low- to moderate-income property owners subject to street assessment will be eligible for financial assistance ranging from 20 to 100 percent of the street assessment for the owner-occupied resident property depending on family size and income level. This financial assistance program is made available through the One Percent Local Option Sales Tax. City staff will review and process financial assistance applications for owner occupied properties once final costs are developed for the project. The interest rate for unpaid balances has recently been reduced from 9% to 3%. Any unpaid balances are also paid for over a 15 year term.

The average assessment based on the engineers estimate, including contingency and engineering is $954.

Attached is the financial assistance chart that the City uses in determining financial aid availability for your reference. This chart is updated every year based on the US Department of Housing and Urban Development (HUD) guidelines.

**PUBLIC OUTREACH**

Engineering Department staff held public information meetings for the affected property owners on March 25, 2014. Prior to this meeting, city staff sent letters and a frequently asked questions brochure to all affected property owners informing them of the meeting. City staff noted any concerns that property owners have. Common questions included property access, construction schedule and special assessments.

City staff and the contractor will work with property owners to accommodate access to their property as much as possible during the construction phase. Also, city staff will answer special assessment questions and process financial assistance requests as they are received.
REQUESTED ACTION

The City Council is requested to give preliminary approval to the Resolution of Necessity, approve the Preliminary Schedule of Assessments, establish the date of the public hearing, and authorize the City Clerk to advertise for bid proposals through the adoption of the enclosed resolutions for the SRF Green Alley Bid Set 4 Project.
