

## Neighborhood Enhancement Lighting Program

The Neighborhood Enhancement Lighting Program provides a dollar for dollar match up to a maximum amount for residential property owners who install either Front yard or Rear yard light fixtures that also improve lighting levels on public sidewalks and alleys. Applicants must own property or reside in the city of Dubuque. Eligible fixtures include energy efficient electric, gas and solar lighting fixtures including LED and CFL lights and fixtures with photo-eye. Fixtures using incandescent bulbs and motion-sensitive lighting fixtures are not eligible. *This program is for installation only and does not reimburse for previously installed fixtures.*

**Front yard lighting** Owners may be eligible for a maximum rebate of up to \$250 (for a total project minimum of \$500.00) towards the cost of purchase and installation of energy efficient electric, gas and solar lighting fixtures installed in their front yard.

**Rear yard lighting** Owners may be eligible for a maximum rebate of up to \$100.00 for a total project minimum of \$200) towards the cost of purchase and installation of energy efficient electric, gas and solar lighting fixtures installed in their rear yard. The light fixtures may be attached to the rear of the home or to owner's garage on the alley.

All required inspections and permits must be completed to be eligible to receive the rebate from the city. Upon final approval, reimbursements may take up to 30 business to process.

To be eligible to receive the rebate, applicants must first contact the Building Services Department to arrange for a preliminary inspection of your site. Once approval of your plan is received and the work is finished, applicant must complete the attached form and return it to the Building Services Department along with any requested supporting documentation including receipts.

Funding for this program is on a first-come first-served basis.
