TO: Michael C. Van Milligen, City Manager
FROM: Gus Psihoyos, City Engineer
SUBJECT: Lower Bee Branch Creek Floating Island Project
CIP# 7201654, PROJECT# 4X0003
DATE: March 22, 2017

INTRODUCTION

The attached resolutions authorize the initiation of the public bidding procedure for the Lower Bee Branch Creek Floating Island Project.

BACKGROUND

In October of 2010 the City Council passed Resolution 390-10 authorizing an application for Vision Iowa River Enhancement Community Attraction and Tourism (RECAT) grant funding specifically for amenities associated with the Bee Branch Creek Restoration Project. One of the amenities included is to construct a floating island in conjunction with the construction of the Bee Branch Creek Restoration Project.

In April of 2011 the City Council passed Resolution 114-11 approving and authorizing the execution of the RECAT Grant Agreement.

DISCUSSION

The RECAT grant application and grant agreement include funding for a floating island to be constructed as part of the Bee Branch Creek Restoration Project, located within the 16th Street Detention Basin.

The proposed floating island system is a form of a wetland which will "bio-mimic" natural floating wetland systems invented by Nature. Vegetated with native plants, it is a beautiful, natural and sustainable eco-system which provides many benefits, from habitat restoration to water cleansing.

When a floating island is launched, a whole diverse eco-system is created which attracts life in all its forms, from microbes to nymphs, to butterflies, to fish, birds.... all the way up the food chain. Figure 1 shows the multitude of benefits provided by floating island systems.
Figure 1. Benefits of a floating island system.

The proposed floating island system consists of fourteen floating islands that vary in size from 70 square feet to 300 square feet in area. The total combined island area is 2,660 square feet. The islands will be assembled, planted with native wetland plants, launched, and anchored to the bottom of the Lower Bee Branch Creek and 16th Street Detention Basin.

PROJECT SCHEDULE

The schedule for the project is as follows:

- Initiate Public Bidding Process: April 3, 2017
- Publish Notice to Bidders, Advertise for Bids: April 7, 2017
- Publish Public Hearing Notice on Plans & Specs: April 7, 2017
- Public Hearing on Plans & Specifications: April 17, 2017
- Receipt of Bids (Bid Letting): April 20, 2017
- Award Construction Contract: May 1, 2017
- Final Project Completion Date: September 1, 2017

RECOMMENDATION

I recommend preliminary approval of the proposed plans, specifications, form of contract, and construction estimate for the Lower Bee Branch Creek Floating Island Project (Project). I further recommend establishing the date of a public hearing and authorize the City Clerk to advertise for bids for the Project.
BUDGET IMPACT

The estimate of probable costs for the Lower Bee Branch Creek Floating Island Project is as follows:

- Construction $182,900.00
- Contingency (10%) 18,290.00
- Engineering 30,500.00
- **Total Project Cost $231,690.00**

The funding summary is as follows:

<table>
<thead>
