

Did you know you could have an Art on the River sculpture to call your own?

Now is your chance to purchase one of these works of art before their scheduled July 2023 departure when we make room for the 2023-2024 exhibition.

- Large scale sculpture is a dynamic way to draw attention to your business' front doors while enhancing your employees experience of arriving to work each day.
- Art on the River sculptures have been reviewed through a competitive juried process for artistic merit and structural integrity.
- Works are suitable for long-term outdoor or indoor display with City staff available to advise on siting the piece at your business or home.
- Build upon Dubuque's reputation as a place tourists visit to see a diverse collection of public art and as a community where artists thrive.
- A portion of sale proceeds goes back to the City to fund upcoming Art on the River exhibitions and outreach.
- Sculpture purchasers can be recognized for their support on the City's website.
